INTRODUCTION

Who We Are

EstatesRW is a full-service property management and real estate company built for Rwanda's growing hospitality and rental market. We combine hands-on hospitality experience with purpose-built technology to help property owners, hoteliers, landlords and investors turn real estate into reliable, well-run income — while giving guests and tenants a seamless, professional experience from first inquiry to checkout.

Our Story

EstatesRW was created from a deep love for Rwanda and a vision to connect it with the world. With honesty, transparency and trust at our core, we help people find the right home, land or business that truly fits their goals. We go beyond property — we connect people to possibilities.

Our Mission

To make property ownership and hospitality in Rwanda effortless, profitable and trusted. We combine professional management, transparent operations and modern technology to deliver consistent guest experiences, protect asset value and give owners complete peace of mind — whether they operate a single apartment, a boutique hotel or a portfolio of rentals.

What We Do

EstatesRW sits at the intersection of investment advisory, property sourcing and property management technology — simplifying how investors enter the market and how owners operate and monetise their assets.

Investment Advisory

01

We guide local and international investors through every step — from identifying high-potential opportunities to negotiation, due diligence and deal structuring.

- Market analysis & insights
- Negotiation & deal structuring
- Site visits & due diligence
- Legal & administrative support

Property Access Network

02

A curated portfolio of land, apartments and hotels with direct access to verified and off-market opportunities across Rwanda.

- Verified land parcels
- Hotels & lodges
- Prime apartments
- Off-market deals

Property Management System

03

A digital platform enabling owners to manage bookings, track occupancy, handle operations and reach domestic and international clients — all from one dashboard.

- Bookings & occupancy
- Service provider network
- End-to-end operations
- Global client access

CAPABILITIES

Services We Offer

■ **Property Management**

Tenant screening and placement, rent collection and accounting, lease administration and regular property inspections.

■ **Hospitality Operations**

Front-desk workflows, guest communication, check-ins, housekeeping coordination and daily operations for hotels, lodges and serviced apartments.

■ **Real Estate Consultancy**

Investment advisory, market analysis and reports, property valuation and portfolio strategy tailored to Rwanda's market.

■ **Revenue & Booking Optimisation**

Dynamic pricing, channel management and direct-booking strategies to maximise occupancy and owner income.

■ **Construction Supervision**

On-site supervision covering quality assurance, timeline management, budget monitoring and compliance oversight.

■ **Project Management**

Full lifecycle delivery from concept to completion — planning, contractor coordination, risk management and progress reporting.

■ **Legal & Compliance**

Title transfers, contract drafting, dispute resolution and regulatory guidance under Rwandan property law.

■ **Property Valuation**

Data-driven valuations for buying, selling, insurance and investment across all property types.

■ **Maintenance & Service Network**

A vetted network of cleaners, technicians and hospitality suppliers keeping every property guest-ready.

■ **Secure Payments & Reporting**

Transparent rent and guest-payment tracking with detailed financial statements and owner dashboards.

Who We Work With

Our platform and services are built around five groups of people, each with their own dedicated tools and workflows inside the EstatesRW system.

Property Owners & Landlords

Single-unit owners and portfolio holders who want reliable income, protected asset value and full visibility without daily involvement.

Hoteliers & Hospitality Operators

Hotels, lodges, guesthouses and serviced apartments needing professional operations, channel management and consistent guest standards.

Investors — Local & Diaspora

Rwandans abroad and international investors acquiring, developing or repositioning hospitality and residential assets, supported end to end.

Tenants & Guests

Long-stay tenants and short-stay guests with verified listings, clear contracts, digital payments and responsive support.

Agents, Service Providers & Partners

Referral agents earning commission, plus cleaners, technicians, designers and suppliers in our vetted service network.

Why partners choose us

- On-the-ground deal sourcing
- Technology-driven management system
- End-to-end investor support
- Structured investment approach
- Local & international network
- Transparent reporting & verified records

The EstatesRW Platform

Everything we manage runs on our own property management operating system — one place for properties, units, leases, rent, contracts and people.

Occupancy Map

Live, colour-coded view of every unit across a portfolio.

Units Register

Full unit inventory with filters, statuses and CSV export.

Leases

Tenant-to-unit leases with rent, deposit and term tracking.

Rent Collection

Monthly invoicing, payment status and collection KPIs.

AI Contracts

Professional management contracts generated and signed digitally.

Bookings & Calendar

Short-stay bookings, availability and channel sync.

Team & Access

Role-based access for owners, managers, agents and tenants.

Activity Log

Full audit trail of every change, for accountability.
